

■ Compact DSP

Analogue test telephone with DSP (Digital Services Protection) which protects against digital signals or external voltages in telephone lines

Characteristics

- Sturdy, fail-safe design
- Protected against 230 V WS
- Overcurrent protection
- Battery-preserving automatic shut-off
- Volume control with three switch positions
- Touch muting
- Headset connection for hands-free operation
- 32 number redial
- Secure operation with data lines

Item	Part No.
Compact DSP	50647792

Accessories	Part No.	Page
Headset (for hands-free communication)	50647865	
Connecting cable with crocodile clips	50069730	
Connection cable with BT plug	50766469	
Connection cable with crocodile terminals	50766483	

■ Alert 340 with DSP

Analogue test telephone with DSP (Digital Services Protection) which protects against digital signals or external voltages in telephone lines

■ IP67 protection class

Characteristics

- Tone or pulse dial
- Selectable ring tones
- Microphone mute switch
- Loud speaker function
- Battery warning
- Belt clip
- Redial

Item	Part No.
Alert 340 with DSP	50125400

■ **D361 ADSL**

Professional, analogue test telephone with DSP (Digital Services Protection) and integrated detection and demarcation of standard data services

- **ADSL compliant**
- **IP67 protection class**

Characteristics

- Integrated redial
- Microphone shut-off
- Acoustic and optical mode display
- Line polarity test in all modes
- Loudspeaker volume control
- Belt clip
- Interchangeable cable
- Alarm on excess voltage
- Detection and demarcation of data services: T-1, E1, ISDN (BRI and PRI), SW56, xADSL, HDSL
- Testing of analogue conductors with no disruption to existing ADSL service

Item	Part No.
D361 ADSL	50125419
